

Narayan Dura

Frontend Engineer | React • TypeScript • Next.js • Angular

Pokhara, Nepal | +977 9866050382 | narayandura5@gmail.com

Portfolio: boss.smebos.co | GitHub: github.com/WebDevNarayan | LinkedIn: linkedin.com/in/narayan-dura-b04a8a212

PROFESSIONAL SUMMARY

Frontend Engineer with 3 years of commercial experience building production web applications with React, Next.js, Angular, JavaScript and TypeScript. Experienced in turning business requirements and designs into reusable, responsive, component-based interfaces, integrating REST APIs, and supporting features through testing, release and production. Currently building frontend features for financial dashboards and Crewingo, an HR and payroll platform for Arabic-speaking markets, including Arabic localisation and right-to-left (RTL) interfaces. Independently designed and shipped SME Business OS, a live multi-tenant SaaS product. Works closely with Java/Spring Boot and Node.js developers, with hands-on backend experience that helps deliver complete, well-integrated features.

CORE TECHNICAL SKILLS

Frontend	React, Next.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Styled Components, shadcn/ui
UI Engineering	Component architecture, reusable components, responsive and mobile-first layouts, state management, forms and validation, loading/error states, cross-browser compatibility
Animation & 3D	Framer Motion, GSAP, Three.js, React Three Fiber
Integration	REST API integration, authentication/authorisation, role-based access control, third-party APIs (YouTube API, LLM APIs)
Quality & Delivery	Integration testing, debugging and root-cause analysis, production issue investigation, code review, Agile/Scrum, release and deployment support
Tooling	Git, GitHub, npm, Vite, Docker, Vercel, Render, Figma, AI-assisted development (Claude Code)
Backend & Data	Node.js, Express, Java, Spring Boot, PostgreSQL, MySQL, Prisma
Other	Arabic localisation and RTL interfaces, multi-tenant SaaS, workflow and approval systems

PROFESSIONAL EXPERIENCE

Asarfi Technologies Pvt. Ltd. — Frontend Engineer

Pokhara, Nepal | February 2024 – Present

- Build and maintain production frontend features across Angular, React and Next.js applications, including the Bank Settlements Dashboard, PaymentsLake Dashboard, Simulator UI and Crewingo, an HR and payroll platform serving Arabic-speaking markets.
- Translate business requirements and designs into responsive, component-based interfaces, building reusable UI components and consistent patterns that other engineers can build on.
- Integrate REST APIs and manage frontend state, form validation, loading and error handling across complex financial, HR and payroll workflows.
- Implement Arabic localisation and right-to-left (RTL) layouts while maintaining usability and cross-browser compatibility.
- Collaborate closely with Java/Spring Boot developers on API contracts; reproduce, isolate and resolve frontend and cross-stack defects, including production issues.
- Write and run integration test cases, and take part in Agile ceremonies, code reviews and release/deployment activities.

Tech: Angular, React, Next.js, TypeScript, Tailwind CSS, REST APIs, Java/Spring Boot

Nep Tech Pal Ltd. — Frontend Developer

Nepal | 2022 (3 months)

- Built production web application features, including a Loksewa exam-preparation platform, in a cross-functional team with designers and backend developers.
- Implemented interfaces from Figma designs as responsive React components.

Tech: React, JavaScript, Styled Components, Figma

Rangin Technology — Frontend Intern

Nepal | 2022 (3 months)

- Contributed frontend features to Duk@an, a production e-commerce application, gaining early professional experience with React and component-based UI.

Tech: React, JavaScript, Styled Components

SELECTED PROJECTS

SME Business OS (SMEBOS) — Founder / Full Stack Developer

2026 – Present | Live: smebos.co | App: app.smebos.co

- Independently designed, built and deployed a multi-tenant HR, attendance and payroll SaaS product, with a frontend in Next.js, TypeScript, Tailwind CSS and shadcn/ui.
- Built reusable UI components and shared frontend patterns across employee management, attendance, leave, payroll, approvals, shift management, document vault and notifications modules.
- Designed a responsive, mobile-friendly interface for small-business users, backed by Node.js/Express, Prisma and PostgreSQL with JWT authentication, role-based access control and tenant data isolation.

Video Doctor AI (yt-assistant) — Developer

Live: yt-assistant.vercel.app

- Built a React web application that analyses YouTube videos with the YouTube API and LLM workflows, turning video data into recommendations for titles, thumbnails, SEO and retention.

Personal Portfolio — Developer

GitHub: github.com/WebDevNarayan

- Designed and built an animated portfolio site with React, Vite, Tailwind CSS, Framer Motion scroll animations and a Three.js / React Three Fiber 3D hero scene.

EDUCATION

Bachelor of Information Technology (BIT) — London Metropolitan University / Informatics College of Pokhara | 2021 – 2023

PROFESSIONAL STRENGTHS

- Ownership of features from requirement analysis through implementation, testing and release.
- Detail-oriented approach to UI implementation, responsive behaviour and visual consistency.
- Clear communication with backend developers, designers and non-technical stakeholders.
- Quick to learn unfamiliar systems, codebases and frameworks.
